The presentation will include compelling videos, real-life stories from individuals affected by impaired driving, and discussions on responsible decision-making. The goal is to empower students to make safe choices and understand the serious, often tragic consequences that impaired driving can have on individuals, families, and communities. MADD aims to foster a culture of awareness and prevention, helping students take a stand against impaired driving.

### COUNSELLOR'S CORNER

This week we had a presentation from the organization CAREERS. CAREERS works with Alberta schools to connect students to employers for paid internships. High school students learn and earn as they test drive different careers through paid internships, helping them find out what kind of work appeals to them. Through CAREERS students can apply for internships in the fields of skilled trades, health, information and technology, forestry, agriculture and energy. This program is for grades 10-12. If you have a high school student who is interested they can talk to me and I can get them started. If you have a business and want to be a CAREERS employer check out their website at <https://www.careersnextgen.ca/>
